**RE: MM Docket No. 99-325**

Dear Ms. Dortch:

As a near 70-year public radio listener (starting with WHA in the 1930's), I strongly support FCC authorization of a SAC for FM stations, especially for our public radio station, WXPR, Rhinelander, WI. The single program channel we now have prevents us from adding much needed additional news and public affairs programming in our Northwoods area since we don't want to cut any further into the music programs and NPR news programming we now carry.

Sincerely,

Elmer A. Goetsch  
*Chief Engineer*  
*Chair, Board of Directors*  
*WXPR Public Radio*
